PROFESSIONAL SUMMARY

Computer Science undergraduate specializing in Data Science, graduating in 2027, with hands-on experience in Python-based data analysis and machine learning projects. Worked on text classification using TF-IDF and scikit-learn, anomaly detection workflows, data preprocessing, and exploratory data analysis. Also brings internship experience in API integration and AWS cloud technologies.

TECHNICAL SKILLS

Programming: Python, SQL, Java (basic), C
Data Analysis: NumPy, Pandas, Matplotlib, Seaborn, data cleaning, preprocessing, exploratory data analysis
Machine Learning: Scikit-learn, classification, TF-IDF, NLP, Isolation Forest, Local Outlier Factor (LOF), Robust Covariance
Development & Tools: REST APIs, FastAPI, MySQL, Firebase, Git, GitHub, Docker, GitHub Actions, AWS
Core Concepts: Data structures and algorithms, DBMS, model evaluation

RELEVANT MACHINE LEARNING PROJECTS

Sentiment Analysis Using Machine Learning
Technologies: Python, Pandas, scikit-learn, TF-IDF, NLP
- Built a sentiment classification model using Python, scikit-learn, TF-IDF, and natural language processing.
- Applied text preprocessing, feature extraction, and model evaluation techniques to assess classification performance.

Intelligent Anomaly Detection and Analytics
Technologies: Python, NumPy, Pandas, scikit-learn, Isolation Forest, LOF, Robust Covariance
- Developed a machine learning workflow to identify unusual patterns in datasets.
- Applied data cleaning, preprocessing, and exploratory data analysis techniques.

Blue-Green Deployment System
Technologies: Docker, Nginx, GitHub Actions, Docker Compose
- Built a container-based blue-green deployment workflow designed to support zero-downtime application releases.
- Implemented CI/CD automation for build, testing, and deployment workflows.

INTERNSHIP EXPERIENCE

Altimetrik | Project Intern | Jul 2026 – Oct 2026
- Contributed to backend development and API integration for an application project.
- Worked with AWS cloud technologies as part of the project.

WSA (Web Stack Academy) | Full Stack Web Development Intern | Remote | Mar 2026 – Apr 2026
- Developed responsive web interfaces using HTML, CSS, JavaScript, and React.
- Worked on MERN-stack application development and REST API integration following SDLC practices.

EDUCATION

GM University, Davanagere | B.Tech, Computer Science – Data Science
Expected graduation: 2027 | CGPA: 7.6/10

CERTIFICATIONS & LEADERSHIP

- AWS Cloud Foundations Training Badge | 2026
- Deloitte Data Analytics Job Simulation
- Google Student Ambassador | 2024–2025
